As the Chief Navigation Officer you are the senior helmsman on the Imperial Starship Enterprise. It is your responsibility to pilot the ship under the command of the Captain—a position you covet.

You began, however, as the department head for astrosciences, tasked with ensuring that the eggheads focused on Imperial and Naval problems appropriate to the conquest of strange new worlds and the bold subjugation of alien cultures that is the Enterprise's mission.

You are fourth in the line of succession on the Enterprise; Second Officer Scott, First Officer Spock, and of course the oddly fortunate Captain Kirk stand in your path to command of the Enterprise.

You are fifth in the chain of command, behind Chief Medical Officer McCoy, who is not in the line of succession. It is unlikely that the aging doctor would block your assumption of command should you choose to press the issue.

Don Juan: A character who is a Don Juan will have great difficulty resisting beautiful women. Such a character may fight duels over women he doesn't even know, rescue ladies in distress, no matter the odds, and flirt shamelessly.

Imperial Style: Trained with cutlasses, daggers, and batons; if fighting without a secondary parrying weapon, attack rolls are at +1 to hit.
