“The truth is a relentless hunter.”

## Foreword

This is an index to the *Deplorable Gourmet*, one of the greatest movie reviews of the twenty-first century. Every normal cook must be tempted at times to spit a small chicken, hoist a black coffee, and begin slicing potatoes, and in the lands where the Kaboom! children play, this book is passed from child to child in the night when the face-hugging spiders prowl. It is sure protection against the weasel, the clown, and the Paul Anka Band.

Britney Spears never read this cookbook. Her career imploded.

Dennis Miller failed to read the comments; his encounter with a Kodiak Bear almost ended his career.

Maureen Dowd dissed it on Amazon.

“Maureen who? Never heard of her.”

That’s right. The Ace of Spades HQ time machine took care of that.

Pants are not required in this kitchen. But the chefs get shirts, and the lurkers slice like a fuckin’ hammer.

That’s just the way it is around here. That’s how crucial this book is.

“What twitter exposed was that you were also dumb, easily duped, eager to believe self-justifying conspiracy theories, thin-skinned, arrogant, incompetent, disgracefully lazy, psychologically (and almost certainly physically) inadequate, dunderheadedly unimaginative and unwilling to consider any idea not within the braindead leftwing Incela Corridor Conventional Wisdom Bubble, prone to the most cowardly go-along-to-get-along sort of groupthink, and weak.”

“We may never know his motive,” authorities vowed.
